

DAMO BRACE

Adjustable Universal Pallet Rack Brace Repair

ADJUSTABLE LENGTH & ANGLE TO FIT ANY RACK

The DAMO BRACE is a universal pallet rack brace design for the replacement of damaged or missing horizontal and diagonal braces. It is unique in its kind as it prevents the replacement of an entire upright when only the braces are damaged.

The DAMO BRACE quickly replaces damaged braces to keep you safe, while reducing downtime.

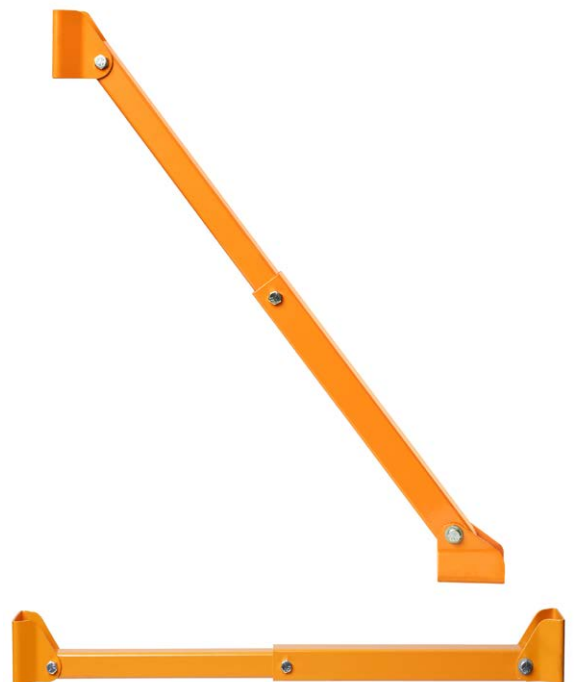

Repairs with the DAMO BRACE can return your racking system to its original capacity.

The DAMO BRACE can be kept on hand for quick installation in under 30 minutes.

The DAMO BRACE can adapt to accommodate horizontal and diagonal braces between 24"-94" long.

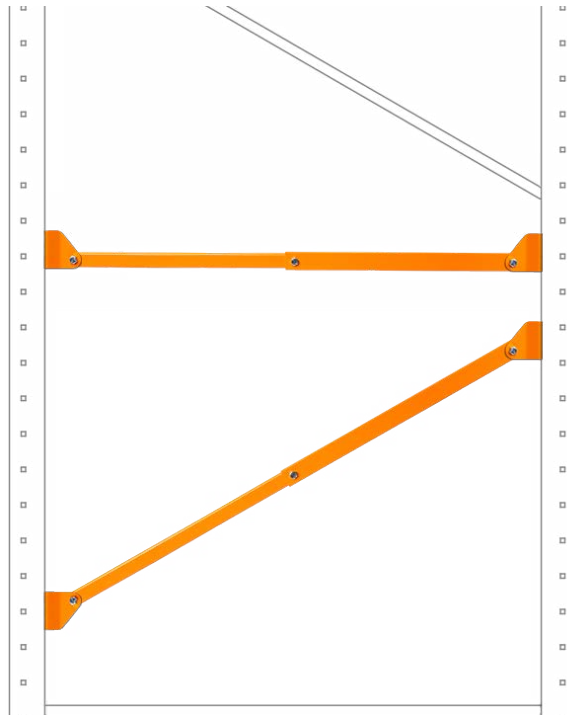

DAMO BRACE

High-quality structural steel with a heavy gauge to offer true impact resistance.

Length is adjustable between 24" and 94".

The brace comes with Grade 5 bolts.

Universal design: with its pivoting head it can be installed in both diagonal and horizontal configurations.

A repair with the DAMO BRACE can cost up to 85% less compared to replacing a rack upright.
