

## THE PARTS STORE OF THE FUTURE

Optimized Space and Performance with an Automated Storage System

- Up to 80% less floor space required
- Significant increase in picking rate
- Improved inventory control

**A good design is the  
starting point of every project.  
Start yours today.**

# The “Goods-To-Person” Concept: Why?

Parts are delivered to your employees not the other way around.

-  Travel time
-  Search time
-  Fatigue and injuries
-  Errors

	Picking rate
	Required storage space

## Discover the Systems

### VLM ICAM SILO<sup>2</sup>

- Up to 50 ft high
- 2 to 7 storage columns
- Up to 4 picking windows
- 880 lb capacity per tray
- Light projection to guide picking
- Display of the part to be picked and required quantities
- ERP/WMS connectivity

Ideal for high ceilings!

### ICAM RIGO HORIZONTAL SYSTEM

- Between 7 ft and 14.7 ft high
- Up to 65 ft long
- 2 to 20 storage columns
- 230 lb capacity per tray
- Light projection to guide picking
- Display of the part to be picked and required quantities
- ERP/WMS connectivity

Ideal for low ceilings!

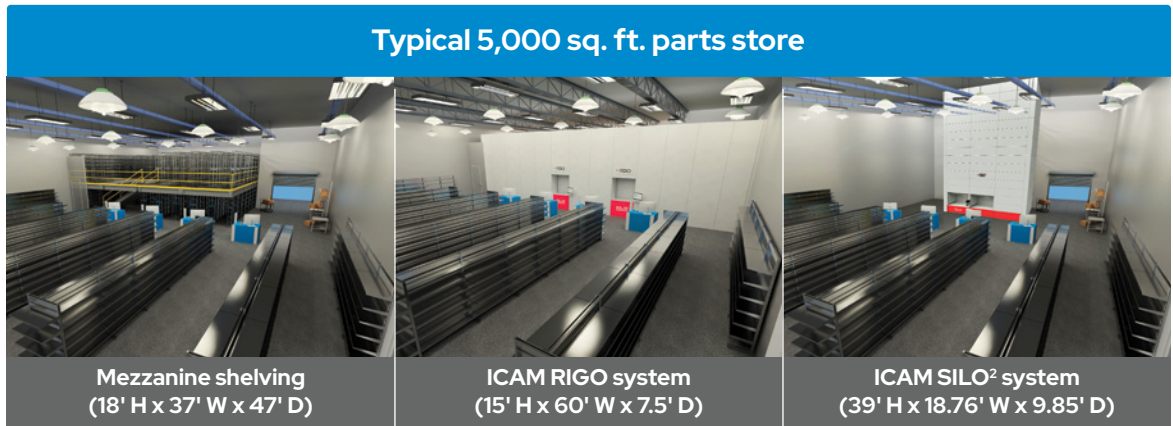

# IRIDE System

## Application Example

Typical 5,000 sq. ft. parts store

	Mezzanine shelving (18' H x 37' W x 47' D)	ICAM RIGO system (15' H x 60' W x 7.5' D)	ICAM SILO <sup>2</sup> system (39' H x 18.76' W x 9.85' D)
Required floor space	1740 ft <sup>2</sup>	447 ft <sup>2</sup>	184 ft <sup>2</sup>
Storage area (sq ft)	2245 ft <sup>2</sup> *	2180 ft <sup>2</sup> **	3284 ft <sup>2</sup> ***
Storage capacity (ft <sup>3</sup> )	1554 ft <sup>3</sup> *	1967 ft <sup>3</sup> **	2391 ft <sup>3</sup> ***
Picking rate per hour			
Number of employees required			

\*@25% utilization

\*\*with 154 trays

\*\*\*with 245 trays

# WHY MSK CANADA?

## Our Mission

MSK Canada's mission is to design workplace environments that optimize space, productivity, and safety for our clients.

## Who We Are

- Family-owned company founded in 1990
- Turnkey storage system projects and installation services
- Expertise in industrial engineering and technology
- An unbiased approach: Design comes first!

## WITH YOU FROM BEGINNING TO END

**Analysis of storage needs**

**Storage system design**

**Installation**

# OUR EXPERTISE

## Static Storage

Our industrial engineering technicians and engineers design the optimal storage layout to meet your operational needs.

## Automated Storage

Specification and installation of best-in-class storage automation systems, including:

- Integration with your ERP/WMS
- Project management
- Support from our in-house technical team

**A good design is the starting point of every project. Start yours today.**
