

MSK

DESIGNER OF OPTIMIZED WAREHOUSES

For over 35 years, we've been listening to our clients to collaborate on industrial storage projects of all sizes.

Static Storage

Our industrial engineering technicians and engineers will design the optimal layout for your storage needs.

Automated Storage (VLM, Carousels)

Specification and installation of high-quality vertical storage systems, including integration with your ERP/WMS system, project management, and support from our in-house team.

OUR TEAM IS THERE FOR YOU THROUGHOUT THE ENTIRE PROCESS:

Analysis

Layout

Technical spec

Installation

Post-installation

A solid design is the starting point for every project.
Start yours now.
